Croquet was a played, need in served, aml in fact every thing was perfectly exquisite, but we fear an appropriate description of the fear an appropriate description of the evening's enjoyment would take up too behold take up too behold take up too behold to be worded at least, and that is egt, something that the state. The aereage we gather in the State. The aereage we gather trom our correspondents, and, of course, less girls. I would advise all such girls to beware of him, until the defines the solution of the bottom of the solution of the last the state of the gate yield between this and last year, pasturage, and in many cases with the basing our conclusions upon the estimates of our correspondents, we should place it at from 15 to 20 per cent, above.

backed up in them by the concurrent estimates of our correspondents. Running back over a period of thirty years, it is gratifying to us to note the advancement in Kentucky In the art of wheat culture. There are other advancements yet to be made, and we are persuaded our wide-awake Kentucky persuaded our wide-aw

of the wheat product of Kentucky. Our wheat, like our blooded stock, by its superior quality, must take and hold the front rank in the principal wheat mans.

If our information is to be relied on, Kentucky, within less than year, will be the fourth of a crop.

Becs—It is remarkable that there have been scarcely any swarms this year. When a colony has started out

plete I, will be by all odds our shortest line to principal wheat markets, and to the scaboard. 'There has been within

C. E. Bowman, Com the last few years a radical change in the modes of milling. The new and improved modes have had quite an effect on the kinds of wheat most desira-

Jaty Report of Commissioner of Agr

FRANKFORT, KV., August 1.

a longer period than ever known before. trade, and knowing that Virginia did about as far from the front as it for days together the thermometer not raise a sufficient supply of wheat marked from zero to 20 degrees below. within her own borders to supply this Here are some This could could not be without serious growing trade and the home consumpresults, and they are to be seen on every tion, I felt that upon the completion of "Reso hand. The fruit-binds in their protecting casements were reached and killed listantly, or else their vitality so far impairest as to destroy all prospects of any thing like a truit crop. Peach trees in many instances were killed. The harrty native blackberry to a large extent was killed to the snow tine throughout the State. Exotic trees and vines that had large allowed the third that had been discovered as a large and the tree will ever remember with gratitude their briefless of the celebrated Haxall and Galigos Mills, at Richmond, Va., asking informations as to the varieties of wheat grown public office to gravity the state of the varieties of will ever remember with gratitude their heroic sacrifices, etc.

"Resolved, That the memories of our dead heroes, who gave their lives to save the nation from destruction, protection of the celebrated the varieties of the celebrated the varieties of the varieties, and the varieties of the varieties state. Exotic trees and vines that had been acclimated, and that had stood all previous winters, suffered the same fate. Perhaps the most serious and marked result was the effect of the extreme cold on the serd-corn, selected as usual from the corn cut up and shocked in the tield. Half of the growing corn crop in Kentocky gives sad attestation of this wish att of the wheat-growing district to-day. Ensuing mon this was

the backward spring, holding in check and none more so than those of South the grass erop on which we so much needed for our poverty-wintered stock,

Retimont, Va., July 12, 1879. medical for our poverty-wintered stock, and the small grain crops were threatened with disaster by the drouth, so out of place and so out of season, running through the entire month of May. At last, the pleasure in replying. We think that the entered himself behind his law books in Springellal. long toped for rain came in coplous showers throughout the entire State, at the grain-forming period in the wheat erop, and the result was an extraordiackness, and the result was an extraordiackness and the result w erop, and the result was an extraordinary wheat harvest. There is some species of wheat for the purpose than others. We regard Southern whiter erops of barby, rye, and oats. Let us to be that the rains with which all parts of the State are now being blessed, in the face of welt-grounded apprehensions the Mediterranean and its several decorate (former former). to the contrary, may produce equally gratifying results in the eorn and tobac-co crops. The grass pastures are beyond reclemption by the seasonable spelt with which the units of which the mifwhich the entire State is being visited. At least, it would be in a maked degree exceptional if it were otherwise. The The clawson White is one of the least

exceptional if it were otherwise. The pastures may be started into new life again, and reptace their parched and dead covering with a green growth, but the dead covering with a green growth, but the short-berry Amber, we condemn as being ensuitable for our South American F. W. Palmer, Postmaster, Chicago, that is all. Kentucky Blue-grass grows ing ansuitable for our South American but two crops in a year, and only two—
a spring and a fall crop.
Corn—Our correspondents, and they are from all parts—of the State, speak despondently and despairingly of anything like a full crop of corn. Their reports, however, were written, in most "Very faithfully,"

Most of our correspondents place crops in their respective counties at from 5 to 25 per cent, above an average. All of them speak of the crop as being musually tine in yield and quality. When a yield of from 12 to 13 bushels per acre is counted a fair crop, and we find this influence on the batcher markets and counted a fair crop, and we fluid this influence on the butcher markets, and year the yield ranging from 15 to 161 a reacting influence on the prices of bushels per acre, we feel justified in our live stock at home. Our corresponconclusions, especially when we are backed up in them by the concurrent estimates of our correspondents.

dents report a full average of hogs in the State. Encouraged by the seasonable week just passed, and with indica-

hold a most advantageous and enviable year. When a colony has started out position with regard to the chief wheat in search of a house and a home of its markets of the United States. have them, but not otherwise.

After the arrival of the train last night a representative of the Messenger called on Mr. E. Culverhouse, Superin-tendent of the Owensloro and Nash-vitte railroad, who stated that he was here to inspect the track, and make all repairs necessary to run regular datly trains. He says work will begin forthwith, and as soon as the track is in a good condition the trains will be run

daily on schedule time.

He stated further, that if the St.
L. N. and C. Company and the stockisville yesterday trains would be run-ning through to Russellville by cold weather, on a well ballasted track with steel rails. He says a contract has already been made for fifty miles of steel raits to be delivered here by the first of November, and that the road will certainly be completed.

The following special despatch to the Messenger was received last night at the

time of going to press: LOUISVILLE, Aug. 5th, 8:50 P. M.— The Owensboro and Nashville stockholders' meeting, Just closed, voted to complete the road to Nashville. The money is to be raised by a sale of Nashville and Chattanooga bonds.

Ou last Friday morning week, imme-John A. Robertson's children, living near the McLean line, were taken sick. Mrs. Robertson, in the absence of the 'squire, hurried over to a neighbor's to procue assistance, when she became af-

Another bloody affair took place last Thursday night in Mclean county. Wayne Smith, living several miles northwest of Calhoon, was called to the fect on the kinds of wheat most desirable. In other words, wheat that under the old modes stood in the front rank have fallen out of It, and other varieties have come to the front. With the knowledge that the Virginia mills manufacture a quality of flour that stood shipment to hot climates, thereby giving them almost the exclusive tropical door of his dwelling about nine o'clock

The Yellow Leaf.

What significance this brings to the heart of man. Ah, yes! the thoughts that cluster around the laber of "yellow leat," are full of pathos and meaning They speak in tones not easily mismiderstood, that although they in the spring and summer time, thittered to the breeze when fresh and green, that now during the FALL season, they are assuming their winter garb of death, and will soon fall to earth, and be for gotten. Ah, what a sad thought Thousands of females are this day pass ing through the yellow leaf stage prematurrly. They are rapidly closing their lives of usefulness by refusing to rescue themselves when so potent and reliable

CONSTIPATION. The rich and poor, the old and young question is, "how are your bowels?" This condition has many causes, and ddity of the liver, colle, tiatulency, intlanimatory diseases, nervousness, loss of appetite, etc., etc. These conditions, whether afflicting old or young, can all be relieved by the use of "Bailey's Sa liver; giving tone and strength to all; ache, heartburn and acid stomacs cools and quiets in fevers; never producing

complain. On the contrary, lo mild, be gentle, be tlrm, be hopeful. As the tracting was left to the Board of Direction making was all to the bond of bindering the pupil be prompt, be dili-gent, be chierful, and your pupils, eatel-ing the inspiration of your example, wall soon pride themselves on their deportment and good work.

prouch you freely upon all subjects that Journal of Aug. 6th. they do not fully comprehend. You and our field of usefadness is rendered four all. All of for your ruling motto:

Agents succeed better and longer than other. To get in the way of making part of your all of your open of your all of your place with the dotter your part of your place. To your place with the dotter your part of your place of the your part of your place. To your place of the your place. The your place of the your place. will thus galu their confidence and trust,

house of our own, we would take as expense. The greatest remedy for this, much pride and pains in its or name that the tion as in that of our private residence, is Hop Bitters - rely on it. See another news at Law and Patent Solicitors 711 We would desire everything there so column tresh and eozy and cheerful that the scholars would feel a pride in it and a love for It. Flowers, pictures, pleasant A had cold, like measles or mamps,

Inseful eltizens.

G. B.—Don't make a mountain of a mole bill, nor, on the other lund, a mole bill, nor, on the other lund, a mole bill of a mountain. Take a manly course. Tell the young lady who annoys you so, plabuly, kindly, pleasantly, just low yon feel he regard to her conduct; point out to her the effect it is ealeulated to have with the other scholars, and desire her to desist. Ten to one, she will thank you, and immediately the property of a thousand will uttend to the point of a thousand will uttend to the point of a thousand will uttend to the property of the when the then they then then only the when the summer, for summer colds are the most dangerous; and for twenty-four hours eat not un atom of food, but drink as largely as you desire of any kind of warm tens, and at the end of that time, if not sooner, the cold will be effect at the whole most dangerous; and the whole when the sounder of the most dangerous; and the whole when the cold will be allowed the property of the property of the property of them then the point on when the other sounder of any kind of warm tens, and at the end of that time, if not sooner, the cold will be effect at the whole and the property of the property of them then in; then dry them then the property of them then in; then dry them then in; then dry them then the property of them then in; then dry them then in; then dry them then in; then dry them then the property of the property of them then in; then dry them then then then in; then dry then

How few of us understand or appreciate the necessity of training our children while yet their thoughts do not wamler beyond the limits of their playground—and yet of how much impor-tance may the instruction they imbibe in their young years, prove in their future. The use of a slate and pencil becomes a source of playful gratification, indeed of improvement, in early childinoid. To make a mark, lo draw a line, is a feat of which they are proud. There is away at the command of the markers.

journal, The American Journal of Edu- looking at him." cation, published at St. Louis. Too much cannot be said of the importance of home influences and home training for children. Their whole future depends more upon this, than any other teaching; yet it is the subject which receives the least consideration. receives the least consideration.

public and private, train to hobits of industry, promptness and fidelity. They are worth a great deal more than they cost for their indirect influence, and their direct influence for good is beyond all human calculation.

tiere the professional teacher it; contact with the mighty army togress is necessary. Association, talconflict, observation, comparison are conditions of professional

that the proprietor has been compelled to purchase it power press and greatly increase his facilities for printing. We are rejoiced to see that brother Barrett's ty school. The elements of co-operative Neither is that of self-promptive in the atlan of children is not an element of the fact that of self-promptive is the state rests its school legislation, which is the substantial basis on the fact the foreigner and the thumb in a glass every time the third, their day and place, but it is not merica, nor in this century.

The clements of co-operative interest in an element of the first class paper are being so liberally rewarded.—Hopkinsvile New Era.

As much nitrate of sola as can be taken up between the forefuger and the thumb in a glass every time the third day and place, but it is not interest. One is the first class paper are being so liberally rewarded.—Hopkinsvile New Era.
